PERSONAL OVERVIEW

A highly adaptable and motivated individual with strong problem-solving and rapid learning abilities. Passionate about full-stack development, I thrive in dynamic environments and approach challenges with a proactive, solutions-oriented mindset. I am eager to acquire new knowledge and technologies while leveraging strong teamwork and collaboration skills to contribute effectively to projects and organizational goals.

EDUCATION

- **Bachelor of Science Honors in Information Technology** Aug 2023 - Aug 2027 Expected
Faculty of Information Technology, University of Moratuwa
- **G.C.E.(A/L) in Physical Science Stream** Jan 2018- Oct 2020
Rahula College, Matara, Sri Lanka.
Co mbined Mathematics-B, Chemistry-A, Physics-B

PROJECTS

- **Travel wish- Personalized Travel Planning Platform** Academic Project (2024)

Developed the Travel Wishmobile application by implementing secure login and sign-up authentication, designing and integrating multiple user-focused pages, and building backend services to support data management and core features. Contributed to both frontend and backend development, ensuring a smooth and engaging user experience while delivering a functional and scalable travel planning platform.

Role: Team leader and full-stack developer (web/app)

Skills: Next.js, Express.js, Node.js, MongoDB

- **WellNest - Mental Wellness Mobile App** (2023)

Developed the MindNest cross-platform mental wellness application with core features such as mood tracking, journaling, guided exercises, favorites, and user insights. Built secure authentication, role-free user flows, and a tab-based navigation structure using React Native and Expo. Implemented state management with Redux Toolkit, integrated an external exercises API with caching and error handling, and created a reusable themed UI for a consistent experience across screens.

Role: Full-stack Developer

Skills: React Native, Node js , Mongo db

- **NITROLINE - Automobile Service Management Platform** (2025)

Developed the NITROLINE service management system by creating user registration and login features, designing multiple role-based pages, and integrating core service options such as bookings, service packages, and dashboards. Contributed to both frontend and backend development by building reusable UI components, implementing secure API communication, and supporting data handling for managers, admins, employees, and customers.

Role: Team Member and developer

Skills: next js, Spring Boot , Neon db

▪ Personalized Weather Dashboard – Mobile App

(2025)

Developed a personalized weather dashboard by implementing automatic coordinate generation based on student index numbers and integrating real-time weather data using the Open-Meteo REST API. Built clean and responsive UI screens to display weather details, including coordinates, request URL, update time, and error states. Added offline functionality through local caching to ensure the last successful weather data remains visible without internet connectivity. Contributed to both data processing and UI development by handling API communication, error management, and local storage.

Role: Individual Developer

Skills: Flutter, Dart, REST API

▪ MindHaven – Youth Mental Health Support Platform

(2025)

Developed a mental-health focused web platform designed to connect youth with qualified counselors and provide open access to helpful wellness content. Implemented secure user authentication, counselor–youth communication features, and a blog system where counselors can publish guidance articles for all users. Built the full application using React for the frontend, Spring Boot for backend services, and Neon for cloud database management.

Role: Individual Developer

Skills: React.js, Spring Boot, Neon DB

TECHNICAL SKILLS

- **Languages:** JavaScript, Java, Typescript, C, PHP, HTML, CSS
- **Front End Technologies:** React, Next, Tailwind
- **Back End Technologies:** Express.js, Node.js
- **Mobile Application Development:** Flutter, React Native
- **Database Technologies:** MySQL, MongoDB

LEADERSHIP AND VOLUNTEERING
